HIZBULLAH RAZIK

UNDERGRADUATE IN SOFTWARE ENGINEERING

As a highly motivated and forward-thinking student, I am actively pursuing an internship opportunity to gain practical experience and develop a strong foundation for my future career. Able to play a partial role in analyzing problems and come up with creative solutions as well as producing methodologies and files for effective data management. Eager to leverage my academic knowledge and passion for Software Engineering, I am excited to contribute my skills to a dynamic team and make a positive impact on real-world projects.

EDUCATION

- **2022-2023**
National Institute of Business Management (NIBM) | Kandy
Higher National Diploma in Software Engineering (Completed)
- **2021 - 2022**
National Institute of Business Management (NIBM) | Kandy
Diploma in Software Engineering (Completed)
- **2020 - 2021**
National Institute of Business Management (NIBM) | Kandy
Certificate in Computer Science (Completed)

SKILLS

- Programming Languages: Java, JavaScript
- Web Development: HTML, CSS, ReactJS
- Database Management: SQL
- Version Control: Git
- Backend Development: Spring Boot
- Frontend Development: React, Tailwind CSS
- Object-Oriented Programming (OOP) Principles
- RESTful API Design and Development

PROJECTS

- Web application for an **Food App** using **ReactJS** and **Tailwind CSS**
- Built a **Shopping Cart** website using **ReactJS** and **Tailwind CSS**. The app will fetch the data from a 3rd party RESTful API for products.
- Developed a **Notes App** using **ReactJS** and **CSS**, allowing users to easily create, edit, and delete notes. The app provides a user-friendly interface for managing personal notes efficiently.
- Built a REST API using Spring boot for Employee Management System. It allows one to search for an employee, fetch all employees, get a single employee, create an employee, update, and delete an existing employee.
